

The high gloss, low friction bougie with an outer surface that improves tube glide.
Available in a range of adult and paediatric sizes, each is single use to reduce the risk of cross infection.

Key Features

Single Use Bougie

- o Low point-of-pressure tip reduces risk of accidental trauma
- o Highly visible colour for improved positioning in poor light
- o Extra tip graduations allow for improved laryngeal inlet entry and exit guidance
- o Adult size available in 600mm and 800mm length, each with or without angled (coudé) tip
- o Available in 10ch and 15ch, suitable for use with all tubes from 4mm(ID) to 10mm(ID)
- o Straight paediatric bougie, 5ch, 470mm length, available
- o Individually packed sterile, 10 units within an ergonomic pack for ease of use
- o Barium tip for improved X-Ray guidance (adult sizes only)
- o Latex Free
